

The College makes conscious efforts to keep learning student centric. The faculty motivates students to participate in classroom discussions. To give more opportunity, students are encouraged to take part in classroom seminars. Students motivated to ask questions when they are having doubts about any topic taught in class, classroom discussion quizzes, debates, and essay writing are organized for broadening the knowledge base of students. The college provides a well-stocked library with reading and internet connection facilities. Educational tours, visits to industry, historical and geographical places are organized.

The extra-curricular activities such as cultural, sports, NSS and extension activities are undertaken by the college to develop participatory learning. The college has a virtual display unit. Teachers use the unit for students' purpose. Teachers conduct special periods, using the display unit. Teachers use IT facilities of the college as per student demand. The college organizes voter awareness programmes, International Nutrition Week. Teachers use audio-visual aids to clear the subjects' concepts.
